

What Do I Feed My Hamster?

By Linda Owens

Hamsters are very small animals and must be fed foods that will help them be healthy. A hamster has little pockets in its mouth where it can store food. Foods that are not right for the hamster can get stuck in these pockets and make the hamster sick.

Pet stores have food for hamsters called Hamster Mix. Hamster Mix has all the right foods to feed a hamster. Hamsters like people food, too. They like fruits and vegetables, meat, and nuts. Be careful to feed your hamster carefully and always take good care of your pet.
